DEMOCRATIC TICKET.

FOR STATE TREASURER. JAMES W. TATE OF FBANKLIN.

No Nomination.

The Democratic Convention held at the Court House on Monday, adjourned without nominating a candidate for the Legislature. We regret this ill-advised course and fear that the Democracy of Shelby will have serious cause to deplore it.

If the anti-convention, anti-nominsting policy is adopted by our friends and obtains the sanction of the party generally in Kentucky, Democracy will have paved the way for its own dissolution. Paradoxical as it seems, the strength of Democracy in Kentucky seems to be its greatest weakness.

We are confident that the policy of open races between Democratic candidates is the policy of dis-organization, and will work the ruin of the party if persisted in. Having expressed our disapproval of convention, we ask the people to reremember the prediction we have made in regard to it, and at the close of the canvass note the result, act upon the experience obtained and hereafter abide by the time honored usages and practices of the party.

The Washington National Intelligencer, after an existence of sixty-nine years, suspended publication last week, from financial embarrass. ment. This Journal, in the days of the old Whig party, was a power in the land. Under the old regime it was regarded as high authority, and was unquestionably one of the purest and best political Journals ever published in the United States. More recently the Intelligencer was the official mouth piece of Andrew Johnson, and through his influence its days were prolonged. But the present Chief Magistrate of the nation is not disposed to sustain anything or anybody that supported was compelled to "yield up the ghost." Gen. Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of the cought of the cough

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is thought incurable, still great numbers of cases where the discase seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great pronot soil white cambric, and yet lasts longer on the hair, giving it a rich

ing else could reach them, under the Cherry Lectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly
cured by it.

Bronchitis is generally cured by taking the
Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need
not publish the certificates of them here, or do more
than assure the public that its qualities are fully
maintained.

Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through miasmate localities, will be protected by taking the *AGUE CURE daily*.*

For Liter *Complaints*, a rising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed. Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

bottle is equal to a gallon of the Syrup of Sar saparilla, or the decoctions as usually made. AN INTERESTING LETTER is published in the Medico-Chirugical Review, on the subject of the Extract of Sarsaparilla in certain affections, by Benjamin Trayers, F. R. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this invaluable attribute, that it is applicable to a state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavoidable or injurious.
